

Press Release

Amerinet Selects Unibased Systems Architecture as a Contracted Supplier for the Group Purchasing Organization (GPO) Network Serving More than 33,000 Members

Chesterfield, MO., September 24, 2009: Unibased Systems Architecture, Inc. (Unibased) has been selected by Amerinet, Inc. as a contracted supplier of process improvement and workflow enhancement solutions with ForSite2020[®], a totally integrated comprehensive suite of enterprise solutions for pre-visit access management and business process improvement, dedicated to reducing costs and improving quality of care. The convergence of Unibased's award-winning suite of solutions and the expansive GPO network of Amerinet will bring outstanding value to over 33,000 members.

Both Amerinet and Unibased Systems Architecture, located in the St. Louis, MO metro area, have a similar goal of providing solutions to reduce healthcare costs per service, expand access to services and improve quality through automation. This synergy of values that focus on integrity, innovation and commitment to quality is the forefront of the agreement and the backbone to the mission-critical solutions that will now be available to deliver the quality care that healthcare consumers deserve. John Vinarsky, MT, (ASCP) MBA, Amerinet's Vice President of Executive Resources and Office Solutions, stated, "This agreement is significant to our members because they will now have more streamlined access to valuable revenue cycle management tools that will reduce inefficiencies and costs as well as improve patient safety and quality – all of which coincides with Amerinet's core values and commitment to assist our member facilities to reduce costs and improve care."

Larry Weigel, Unibased's Senior Vice President and CFO, reiterates these values and Unibased's mission by adding, "As a company that has always focused on our clients and strived to deliver the highest quality of enterprise solutions available as the #1 KLAS-rated solutions in our market segments for over 6 years, we are very excited about being a part of such a highly-rated GPO as Amerinet. Healthcare providers and consumers across the country will now benefit from the revenue cycle improvements made available from this collaboration, and we look forward to working with the exceptionally skilled personnel from Amerinet as well as the many opportunities this agreement will provide for both companies."

About Amerinet, Inc.:

As a leading national group purchasing organization, Amerinet strategically partners with healthcare providers to reduce costs and improve quality. Through its Total Spend Management solutions and operational performance improvement programs, tools and services, Amerinet assists members in their efforts to reduce costs, improve efficiencies and create new revenue streams. Supported by a team of clinical, data and supply chain experts, Amerinet offers a comprehensive portfolio of product and service contracts to address members' specific needs. Amerinet serves acute and alternate care site healthcare providers nationwide. To learn more, visit www.amerinet-gpo.com.

About Unibased Systems Architecture:

Celebrating its 23rd year in the HIT industry, Unibased Systems Architecture's reputation for product quality, reliability, and supporting services has no equal. Unibased and its products have maintained the highest rankings from the KLAS™ independent reporting for the last eight years. Unibased markets various products which are open, scalable, integrated client/server and web enabled solutions, designed to meet the unique needs of sophisticated enterprise organizations. Unibased has major solution offerings in the HIT and air travel markets, providing real-time production scheduling, human resource, security and financial systems.

In the HIT industry, ForSite2020® is an integrated solution which offers alternative access management techniques, including scheduling, EMPI, and registration, and tracks patient resource needs from pre-access through follow-up. ForSite2020 also monitors the effectiveness of clinical programs, financial productivity and capacity management. ForSite2020 has an integrated module which addresses surgery procedure(s) and surgeon scheduling, pre-admission activity monitoring, surgeon preferences, suite utilization, materials management, clinical worker training and certification, perioperative charting, and surgery based EHR. ForSite2020 results in significant improvements in physician and patient relations; and includes a physician portal, consumer portal, automated order creation, a business intelligence offering labeled ForSite Analytics, and revenue cycle functions such as validation of patient demographics, patient's current insurance eligibility checking, assurance of medical necessity compliance, and estimation of the patient's out-of-pocket expense based upon scheduled and ordered services.

Unibased products and services are available through direct sales, marketing partners, value added resellers and system integrators. Unibased Systems Architecture is a private corporation founded in 1986, and is based in Chesterfield, Missouri. Visit Unibased on the web at www.unibased.com or contact:
